JACKS OR BETTER

Jacks or better is a five card poker game that the player wagers on getting jacks or better to receive a payout. Each player will receive five cards face down. The cards will be dealt from left to right. The player will then have the option to discard from 1- 5 cards. The player will place the cards they wish to discard face down on the table in front of their betting spot. The dealer will deal out the required number of cards to each player from left to right. The dealer will pick up the players discards immediately after delivering their new cards, the discarded cards will then be placed face down in the discard rack. The players will then place their cards on or next to the betting spot. The dealer will then flip over the players cards from left to right and pay or take accordingly, using the provided pay table.

* All players must place a wager in the betting spot to receive cards.
* The table will have 5 betting spots.
* In the event of a malfunction or a mistake the hand will be called dead and all bets will remain.
* Sharing of information between players is prohibited regarding their individual hands.
*The floor supervisors decision is final.
*$20,000.00 per individual hand maximum
*The wagering for the hand is from the minimum to the maximum allowed by the house.
