**Re: Connect 4 Amusement Game
Washington State Version**

Dear Mr. Treankler

Thank you for submitting The Connect 4 amusement game to us for review. In the information submitted, it was noted that the software has been modified for Washington State. Specifically, the auto adjust feature that allowed the CPU difficulty to automatically adjust has been disabled in Washington.

The Connect 4 amusement game play is similar to the Hasbro Connect 4 checkers game. Players use the arrow keys to move their chip either left or right and then hit the drop button to drop their chip before the time runs out. The object is to be the first to align 4 of your chips vertically, horizontally, or diagonally to win. Players have the option of playing against another player or the computer. If a player is the first to connect 4 of their chips they move to the bonus round. In the bonus round, players win tickets by stopping the moving light on the target.

The WA version of Connect 4 is approved for use as Group V, hand/eye coordination (WAC 230-13-035) amusement game in Washington State. As you are aware, your representative was previously notified by e-mail regarding this approval. This letter will provide you with formal documentation of the approval.

Please be advised that any modifications to the Connect 4 amusement game software or associated equipment must be provided to us for additional testing and review. In addition, the approval of this equipment may be rescinded at any time if the game is found to be out of compliance with the rules and/or laws in Washington State. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

Mark Harris
Assistant Director
Field Operations Division
