**Re: Little Speedy Amusement Game**

Dear Ms. Timberlake,

Thank you for submitting the Little Speedy amusement game, manufactured by LAI Games, to us for review. We have completed our review.

It is my understanding the game plays as follows:

Players attempt to hit as many illuminated buttons as they can within a specific time limit. At the end of the normal game time, there is a three-second bonus round in which all the buttons are illuminated at once. The player then attempts to hit as many as they can before time runs out. Tickets are awarded based on the player's score at the end of the game.

The Little Speedy game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 5 Hand/Eye Coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the Little Speedy amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

Mark Harris  
Assistant Director  
Field Operations Division
