Re: Andamiro Magic Shot Amusement Game Version 1.0

Dear Mr. Masterman,

Thank you for submitting the Magic Shot amusement game to us for review. Special Agents Karen Rea and Sonja Dolson have completed their review. It is my understanding the game plays as follows:

The object of the Magic Shot Game is to position the "s" shaped arm into one of the target holes. The player positions the arm to the desired prize by holding a button on the game. When the arm reaches the target hole the player releases the button. If the player successfully places the "s" shaped arm into one of the target holes that prize is dispensed. The Magic Shot Game price per play can be adjusted based on the location and value of the prizes. You were advised that the maximum wager is \$3.50 and maximum prize is \$500 for locations where minors are allowed to play in Washington.

The Magic Shot game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group V, hand/eye coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the Magic Shot amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

A handwritten signature in cursive script that reads "Mark Harris".
