Re: Monster Hunt Grand Amusement Game

Dear Mr. Faith,

Thank you for submitting the Monster Hunt Grand amusement game to us for review. We have completed our review. In the information you provided it was noted that players are required to give up four monsters as one way of advancing to the next level of the game. You were advised that this would not be allowed in Washington. You agreed to remove this feature for games sold in Washington.

It is my understanding the game plays as follows:

The player inserts tokens and pushes the start button. The spinner will gradually pick up speed. The player then presses either the fast stop or slow stop lever to use their skill to stop on the desired section of the spinner to capture a monster or land on a specific ticket value. The player receives the amount of tickets displayed on the location where the spinner stops. Tickets are also awarded for each monster captured. To advance to the next level the player must stop the spinner on the go up to the next level zone. If the player captures all monsters they also have an opportunity to advance to the next level.

The Monster Hunt Grand game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 5 Hand/Eye Coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the Monster Hunt Grand amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

A handwritten signature in cursive script that reads "Mark Harris".
