Re: Prize Transporter Amusement Game

Dear Ms. DeLuca,

Thank you for submitting the Prize Transporter amusement game to us for review. Special Agents Karen Rea and Sonja Dolson have completed their review. It is my understanding the game plays as follows:

The object of the Prize Transporter game is to use the joystick to position the electromagnetic craft or other custom theme (helicopter, submarine, etc.) over a prize located inside the game. After the player positions the craft, they press the button to drop the craft inside the target attached to a prize. The colors on the prize targets are associated with different difficulty levels which are displayed on the game. If the player drops the craft in one of the colored prize targets, the prize is lifted and then dispensed from the game. The Prize Transporter game price per play can be adjusted based on the location and value of the prizes. You were advised that the maximum wager is \$3.50 and maximum prize is \$500 for locations where minors are allowed to play in Washington.

The Prize Transporter game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 7 Crane (WAC 230-13-045) amusement game in Washington State. Licensees operating the Prize Transporter game must ensure the game complies with the crane game standards in this rule.

Please be advised that any modifications to the Prize Transporter amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

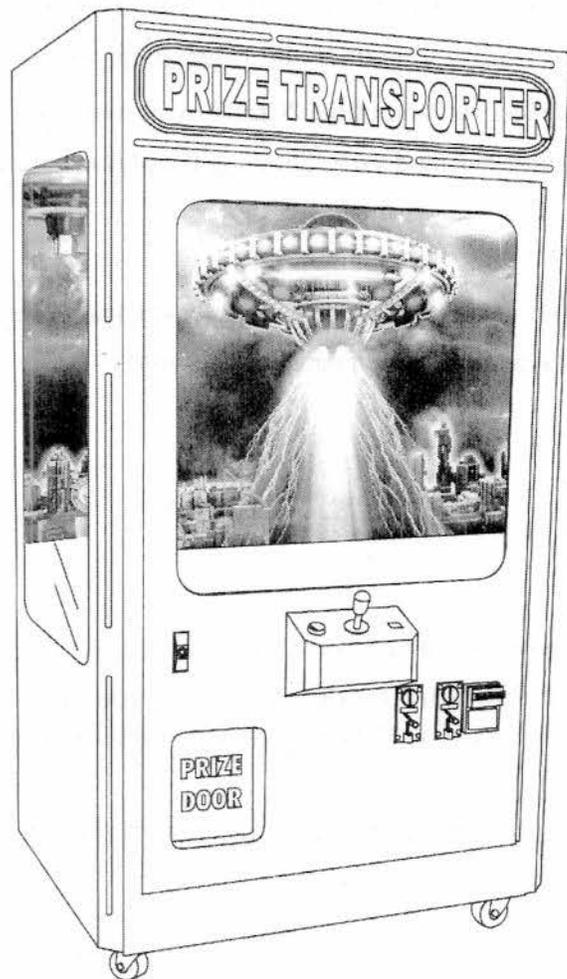

A handwritten signature in cursive script that reads "Mark Harris".
