RE: Game Manager Version 6.5 Build 142

Dear Ms. Zarach:

Thank you for requesting approval for the Game Manager Version 6.5 Build 142. We have completed our review.

We approved the Game Manger Version 6.5 Build 140 on October 17, 2006. You submitted the Game Manager Version 6.5 Build 142 noting the following changes from the previous approval: incorrect reserve amounts for a single game on multiple ports; unexpected increments to coin count, progressive, and hands played data; changed text color in jackpot messages screen; increased number of characters for state field process jackpot dialog; improved regional date formats for consistency; limited selection of files to archive to one at a time; and increased house and reserve percentage fields from two to six digits. We are approving these changes.

The electronic signature for the Game Manager Version 6.5 Build 142 is as follows:

Game Manager 6.5 Build 142

Game Manager	MDS or Eagle Signatures
GameMgr.exe	103DCCDB9B3C25070DF128D737A1729C

Please be advised this approval is contingent on your description of the activity and the current rules and laws that govern gambling in Washington. We reserve the right to investigate and re-evaluate the above listed equipment if it is determined that such review is required to ensure compliance.

Ms. Zarach

If any modifications are made to the Game Manager, you must resubmit for additional testing and review.

Thank you for your cooperation during this process. We appreciate your desire to comply with our regulations. If you have any questions regarding this matter, please contact me at (360) 486-3512.

Sincerely,

David Trujillo
Assistant Director
Licensing Operations Division
