Re: i-Score Plus v 1.0.00

Dear Ms. Sherwood,

Thank you for requesting approval of the i-Score Plus v1.0.0 upgrade. We have completed our review.

The i-Score Plus v1.0.00 that works in conjunction with the i-Shoe Auto v2.0.141 (approved 5/7/10), is approved for use in Washington State. We are approving the i-Score Plus v1.0.00 with the following requirements:

- A user login and password should be added to start up the PC Table Processor in order to limit access by unauthorized users.
- Disable the functionality that allows an automatic login when the device is powered on.
- If the optional i-Shoe Auto is used with the i-Score Plus , the keypad should only be attached to the i-Shoe during configuration of the display.
- If the optional i-Shoe Auto is used with the i-Score Plus all requirements associated with the i-Shoe Auto remain in effect.
- The i-Score Plus cannot be used with any other electronic or mechanical shoe, unless authorized and approved by us.
- The Windows 7 PC that runs the i-Score Plus includes several USB ports and a CD/DVD reader that should be sealed and secured during operation on the gaming floor. The Ethernet Port should also be sealed if no i-Shoe is connected to the i-Score during operation.
