RE: Galaxy Gaming Bonus Jackpot System Andromeda Series Stage 3c

Dear Mr. Saucier,

Thank you for requesting approval of the Bonus Jackpot System – Andromeda Series – Stage 3c. We have completed our review.

The Bonus Jackpot System-Andromeda Series – Stage 3c ("Andromeda – Stage 3c") is approved for use in Washington State to be operated only as described in the documentation you provided us in the "Game Endorsement Form for New or Upgraded Equipment." The approval is contingent on the following requirements:

- Galaxy Gaming must upgrade all previously approved Bonus Jackpot System Andromeda Series 3 systems currently installed in Washington to the Andromeda – Stage 3c approved system. These upgrades must be completed within 45 days of the date of this approval.
- No internet connection is allowed on the Andromeda – Stage 3c server.
- Only reviewed and tested components of Andromeda – Stage 3c can be connected to the Bet Tabulator System Server. No other programs can be run on the Bet Tabulator System Server.
- Only licensees or Tribal casinos operating the system shall have access to make changes to the TableVision display (posting and/or choosing paytables or posting the current jackpot amount).
- Auto complete for user name and passwords must be disabled on all web browsers used to access the Andromeda – Stage 3c. For example, Internet Explorer auto complete can be disabled in Windows registry settings. As with wireless functionality, non-administrator user accounts must not have the capability to modify auto-complete settings.

- Locally disable the Remote Desktop and Wireless services installed on the Pit/Site Controller and/or any laptop or computer connected to the system. After installation of the system, House Banked (HB) licensees and Tribal Casinos must ensure that wireless services are disabled on any laptop or computer connected to the system.
- Notification to the Washington State Gambling Commission must be made prior to the first installation in Washington and each installation thereafter so arrangements may be made for Agent inspection/review. Please provide a list to include specific locations, dates and times this system will be installed at least 10 business days prior to installation. Send the list to Sonja Dolson at sonja.dolson@wsgc.wa.gov.

Additional Requirements for HB licensees:

- Ensure HB licensees operating the Andromeda – Stage 3c ensure only nine player positions are allowed per table.
- Ensure HB licensees are not allowing more than four separate games within a single hand.

Requirements for Progressive Jackpot Games:

- Verify HB licensees are aware of the requirements for progressive jackpot games if they use the Andromeda – Stage 3c to operate a progressive jackpot.
- HB licensees who use the system to operate progressive jackpot games must ensure they maintain records that account for all funds collected for progressive jackpot games.
- HB licensees who use the system to operate progressive jackpot games must require a specific wagering limit on the progressive wager (for example all wagers must be \$1) to ensure all funds are accounted for.
- If operating a progressive jackpot game, HB licensees must ensure the chips are placed on the center of the sensor to ensure all wagers are accurately recorded.

Tribal Casino Implementation:

- For Tribal Casinos, ensure internal controls are revised to include new equipment and procedures, and approved by Tribal Gaming Agency and concurred with by us.
