October 20, 2005

VendingData Corporation
Janine Riopelle, Legal Assistant
6830 Spencer Street
Las Vegas, NV 89119

Dear Ms. Riopelle:

Thank you for sending information regarding the modifications made to the Deck Checker card verification device.

After reviewing your information, the team responsible for reviewing gambling equipment submission determined the modifications to the Deck Checker card verification device do not require formal lab review. I understand your office was notified of this decision on September 21, 2005, and approval was given to begin placement of the Deck Checker software version 3.6 in Washington casinos. This letter is for the purpose of memorializing this decision and the notification your office received last month.

This notification is based on the information provided by recent VendingData Corporation and Gaming Laboratories International submittals. Should any additional modifications be made to the Deck Checker software version 3.6 our agency must be notified to determine if formal review is necessary.

Thank you for notifying our agency of these modifications. If you have any questions regarding this letter or need further assistance, please contact Sonja Dolson at (253) 471-5312 ext.235.

Sincerely,

A handwritten signature in black ink, appearing to read "D. H. Trujillo".

David Trujillo, Assistant Director
Licensing Operations Division
