Dear Mr. Gerow:

Commission staff have completed their review of ZDI Submittal VIP version 3.1.4. Given the results of the review I am authorized to grant conditional approval of the Video VIP Pull-Tab Dispensing Device, also know as, VIP Version 3.1.4. This approval is dependent upon the following conditions being met:

- You must demonstrate that the pull-tab ticket you will use in the VIP Version 3.1.4 is approved for use by having met pull-tab requirements in Title 230 WAC;
- The Commission's Electronic Gambling Lab must review the approved pull-tab ticket in conjunction with VIP Version 3.1.4 to be assured the approved versions of the dispenser and ticket operate as represented;
- You must also meet the requirements for pull-tab dispensing devices set out in WAC 230-30-097.

These conditions must be met before you sell VIP Version 3.1.4 in Washington State. In addition, while conditional approval does not depend upon this, you should know that Commission staff will be bringing forward a rule change to WAC 230-30-103(1) as this rule does not contemplate partial opening of a pull-tab as it is dispensed from a pull-tab dispensing device to reveal a bar code. If you have additional questions, please contact me at 360-486-3512.

Sincerely,

for *Keith B. Schuster, CPA, CFE*
