# TRAINING MANUAL

*Fortune Blackjack is a standard house-banked blackjack game but with an optional bonus wager. All rules pertaining to standard blackjack as posted on the WSGC's website remain the same and are not altered in this game.*

## GAME OVERVIEW

**Note: Casinos should only deal Fortune Blackjack with a continuous shuffler produced by SHFL entertainment. This bonus wager—like most in the market—is subject to card counting.**

Fortune Blackjack is an optional blackjack bonus wager.

Before the start of each hand, players may wager that their first two cards will total 20 or 21. Paytable below:

Ace-King suited	25 to 1
Ace-Queen suited	20 to 1
Ace-Jack suited	15 to 1
Ace-10 suited	10 to 1
Non-suited blackjacks	5 to 1
Any 20	2 to 1

In this game, all payouts double if the dealer busts. So if the player has Ace-Jack suited and the dealer busts, the player wins 30 to 1.

Fortune Blackjack does not interfere with basic blackjack strategy. Players make no decisions after placing their bonus wager.

## DEALING PROCEDURES

Players must place their bonus wager in the marked area.

Once players make their blackjack and optional bonus wager, deal the cards according to house rules.

The dealer should settle regular wagers and the bonus wagers at the end of the game (once the dealer's hand is complete).

## ADDITIONAL RULES

- ❖ Betting limits must comply with Washington State regulations.
- ❖ Players may not wager on the house's hand or on other player's hands.
- ❖ Side bets between players are prohibited.
- ❖ Aggregates are allowed.

## IRREGULARITIES

- ❖ In the event of a shuffler malfunction, all hands are void.

*Operators cannot allow wagering limits to exceed the authorized limits set out in WAC 230-15-040 and WAC 230-15-140.*
