### PETITION FOR RULE CHANGE – RCW 34.05.330

To Whom It May Concern:

On behalf of the Little Creek Casino Resort, a wholly owned enterprise of the Squaxin Island Tribe, I request the Gambling Commission amend WAC 230-03-052 (“Resident agent to be appointed by out-of-state applicants and licensees”) to remove the requirements that a resident agent be a “natural person” and that the resident agent provide a “home address.” The requirements introduce unnecessary inconvenience and expense to key vendors at the Resort and go beyond what is necessary to serve the Rule’s stated purpose: to provide an in-state means of effecting service of process and other communications. The additional requirements in the Rule appear to be inconsistent with other state requirements for resident / registered / statutory agents, *see e.g.* RCW 25.15.020, 24.03.050, and the requirements appear to lack specific authorization under chapter 9.46 RCW. I would be happy to answer any questions or supplement this petition on request, and would be pleased to work with the Commission’s legal staff to develop appropriate draft amendments. I am available at [nschreiner@squaxin.us](mailto:nschreiner@squaxin.us) or (360) 462-7102. Thank you for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "Nathan Schreiner". The signature is fluid and cursive, written over a white background.

PROPOSED RULES

GAMBLING COMMISSION

[Filed November 22, 2011, 4:39 p.m.]

Updated and filed June 13, 2014 4:00 p.m. EST

**Summary of Petition:**

Purpose of the Proposal and Its Anticipated Effects, Including Any Changes in Existing Rules:

50/50 Central Delaware Inc., a licensed manufacturer, is requesting a rule change to allow raffle tickets to be sold using electronic raffle systems.

The system is loaded into hand held equipment that prints raffle tickets. For example, an individual representing a charitable/nonprofit organization could walk around a facility or event grounds with a handheld point of sale (POS) system and ask people if they want to purchase a raffle ticket. If so, the individual representing the nonprofit would collect money, print a receipt from the POS equipment and give the receipt to the purchaser. The raffle number(s) are printed on the receipt. Individuals who purchase tickets would not interact with the equipment.

Currently, one discount plan is allowed per raffle (for example, tickets are \$8 each, or buy two for \$10). The rule change would allow raffles that use the electronic accounting system to use up to four discount plans for a raffle. The petitioner also requests removing the requirement that raffle licensees must get approval from the commission to exceed \$80,000 in prizes annually.

**New Sections:**

**WAC 230-11-200 Defining "electronic raffle system."**

"Electronic raffle system" means computer software and related gambling equipment approved by us and used by raffle licensees to sell tickets, account for sales, and print paper tickets to determine winners.

**WAC 230-11-205 Operating requirements for electronic raffle systems.**

Electronic raffle systems must be approved by us prior to use, meet the requirements below, and not perform additional functions.

(1) Raffle licensees using electronic raffle systems must:

- a. Conduct their raffles in the same way as other raffles; and
  - b. Print individual raffle tickets prior to the drawing; and
  - c. Disconnect all connections that go outside of the electronic raffle system to ensure that internet capability is not availableInternet capability is important to allow the electronic system to update in real-time and therefore must be available with a secure connection;
- and

- d. Not allow raffle players to interact with the electronic raffle system.
- (2) Approved electronic raffle systems may bundle tickets and sell them at a discount if they:
- a. Create the discount plan before selling any raffle tickets; and
  - b. Do not change the discount plan during the raffle; and
  - c. Make single non\_discounted tickets available to all participants; and
  - d. Only use up to a maximum of four discount plans for each raffle; and
  - e. Print each discounted raffle ticket number included in a bundle and a description of the discount plan on a single ticket/receipt.

**WAC 230-11-210 Leasing electronic raffle system.**

If a raffle licensee leases an electronic raffle system from a manufacturer, the lease can be based upon a percentage of the gross raffle receipts. ~~must not be based on, in whole or in part, the raffle receipts. However, manufacturers may charge a fixed amount per event. (I believe this was addressed through the contract with the non-profit in 2010 not sure if this will now be addressed through the software or if it remains as it was in 2010).~~

**WAC 230-16-152 Remote access of electronic raffle systems.**

Licensed manufacturers or manufacturer representatives may access the electronic raffle systems for maintenance, ~~or~~ repair and auditing purposes. Remote access will only be enabled for the duration of the maintenance, ~~or~~ repair and auditing purposes and the connection terminated immediately after.
