Overview of the Rules

Introduction

Dragon Bonus is an optional bonus wager for baccarat. Players have two ways to win: 1) If their selected hand for the Dragon Bonus wager is a natural winner; or 2) is a non-natural that wins by four or more points. With non-natural winners, the higher the margin of victory, the higher the payout.

The Dragon Bonus is an optional bonus wager which can be utilized when playing traditional baccarat or mini baccarat. The following rules must be adhered to:

- Players must make a traditional baccarat wager in order to bet on the Dragon Bonus wager.
- If players make the Dragon Bonus wager, it must correspond to the traditional baccarat wager. For example, if they make a traditional wager on Player, their Dragon Bonus wager must also be on Player.
- If offered by the Washington location, the player may also have the option to make the Dragon Bonus Progressive bonus wager.

Dealing Procedures

1. Players must make the Dragon Bonus wager before the dealer reveals any cards.
2. The dealer will then deal the traditional baccarat hand according to house procedures.
3. When the hand is over, the dealer will reconcile traditional baccarat wagers according to house procedures.
4. Casinos can reconcile bonus wagers any way they like. Example: Remove losing wagers immediately, and then pay winners.
5. Notes on naturals:
 - a. Natural winners always pay even-money on the Dragon Bonus wager.
 - b. If the event of a natural that ties (8-8, 9-9), the Dragon Bonus wager pushes.
 - c. In the case of a non-natural tie, the Dragon Bonus wagers lose.
6. Note, if the Washington location is offering the Dragon Bonus Progressive bonus wager, then the below rules will need to be followed in addition to the Baccarat and Dragon Bonus rules.

Overview of the Rules

Introduction

Dragon Bonus Progressive is an optional wager for baccarat. Players have three ways to win: 1) If the winning baccarat hand is a 2, 3 and 4 (equaling a total of 9 over 0). 2) If the winning baccarat hand wins 8 or 9 (non-natural) over 0. 3) A natural win.

The Progressive wager is tied to the winning standard Baccarat wager.

Ex. Make a bet on the player, and on the progressive wager. If the player wager wins with one of the qualifying progressive payouts listed below, the player will win according to the payable.

Ex. Make a bet on the banker, and on the progressive wager. If the banker wager wins with one of the qualifying progressive payouts listed below, the player will win according to the payable.

Dealing Procedure

1. To begin each round, players must make the standard baccarat game wager. They may also place the optional Dragon Bonus wager and progressive wagers. Players must place the progressive wagers on the sensor in front of their betting position. The sensor will light up once wager is recognized.
2. Once all players place their bets, the dealer will press "COIN IN" on the keypad. The sensors will then light up, indicating a progressive wager. The dealer will remove progressive wagers from bet sensors.

3. The dealer then follows house procedures for dealing the regular game.
4. Once the hand is over, the dealer will reconcile traditional baccarat wagers according to house procedures.
5. Casinos may reconcile bonus wagers any way they like. Example: Remove losing bets immediately and then pay winners.
6. Notes on Naturals for standard Dragon Bonus Wager (if applicable):
 - a. Natural* winners always pay even-money on the Dragon Bonus wager.
 - b. In the event of a natural* tie (8-8, 9-9), the Dragon Bonus wager pushes.
 - i. All other ties will result in Dragon Bonus wager loss.
7. Progressive winners:
 - a. The percentage pays are paid from the progressive jackpot shown on the progressive meter.
 - b. For the 100% prize, the amount shown on the meter is split among the players that made the progressive wager and have won their standard baccarat wager. The 25% prize is deducted from the meter and split among the players that made the progressive wager and have won their standard baccarat wager.
 - c. When there is a progressive winner, the dealer shall press the appropriate hand button on the keypad. (If the hand button is pressed by accident, pressing it again will turn it off.)
 - d. The dealer shall then contact a supervisor.
 - e. Once the casino verifies the progressive win, the supervisor shall insert the key and rotate it to "JPH" and then press "J-pot" button. This records the win onto the Game Manager. House procedures are then followed for paying the prize. (Reviewing the monitor connected to the Game Manager will show the prize amount to be paid, and pressing the "money bag" icon will print a win page, which can be used to help record the payout for accounting.)
 - f. Returning the supervisor key to the "Run" position will restore normal operation of the table, and adjust the meter appropriately for the prize won.
 - g. When the dealer reconciles all action, he presses "Game Over." This resets the system to begin the next hand.
 - h. Once the "J-pot" button is pressed, the prize is logged into Game Manager. If the progressive pay needs to be backed out at this point, the award will need to be manually backed out using the Game Manager manual adjustment feature.

Please remember, the progressive wager is tied to the players winning standard baccarat wager.

***Natural= Two-card total consisting of 8 or 9.**
