

IN BETWEEN Rules of Play and Pay Tables

- (a) A casino licensee may, at its discretion, offer players at a blackjack table the option to make an additional IN BETWEEN wager. The IN BETWEEN wager of a player shall win if the dealer's upcard falls between the player's initial two cards according to the rank order (2-3-4-5-6-7-8-9-10-J-Q-K-A) and will lose if the dealer's upcard falls outside the player's initial two cards according to the rank order. However, if the dealer's upcard and the player's initial two cards are the same rank the player wins.
 - 1. A winning IN BETWEEN wager shall be paid in accordance with (g) below.
- (b) An IN BETWEEN wager shall have no bearing on any other wager made by a player at the game of blackjack and applies only to the player's first two cards.
- (c) Prior to the first card being dealt for each round of play, a player who has placed the minimum Blackjack wager required in accordance with the rules of the Blackjack game set forth by the casino licensee may make an IN BETWEEN wager. The minimum and maximum IN BETWEEN wager permitted by a casino licensee shall be posted.
- (d) An IN BETWEEN wager shall be made by placing gaming chips on the appropriate area of the blackjack layout.
- (e) Immediately after the second card is dealt to each player, and prior to any additional cards being dealt to any player at the table or the dealer and before any card reader device is utilized, the dealer shall, starting with the player farthest to his or her right and continuing around the table in a counter-clockwise direction, settle in succession all IN BETWEEN wagers by collecting all losing wagers and paying all winning wagers in accordance with (f) below.
- (f) Winning IN BETWEEN wagers are paid according to the respective card spread. Examples of card spreads are as follows:
 - 1. One card spread (dealer's upcard is a 5, player's cards are 4 and 6)

2. Two card spread (dealer's upcard is a 5 or 6, player's cards are 4 and 7)

3. Three card spread (dealer's upcard is a 5, 6, or 7, player's cards are 4 and 8)

(g) All winning IN BETWEEN wagers shall be paid at the odds in the following pay tables selected by the casino licensee and posted at the table.

SPREAD	PAYTABLES			
	A	B	C	D
Triple match (the dealer's upcard and player's initial two cards are the same)	30 to 1	30 to 1	30 to 1	40 to 1
One card spread	12 to 1	10 to 1	10 to 1	10 to 1
Two card spread	6 to 1	6 to 1	5 to 1	5 to 1
Three card spread	4 to 1	4 to 1	3 to 1	3 to 1
All other spreads	1 to 1	1 to 1	1 to 1	1 to 1

DECKS	HOUSE ADVANTAGE			
	A	B	C	D
One Deck Blackjack	8.338%	10.461%	14.999%	12.646%
