

# **THREE CARD POKER (FACE-UP)**

## **RULES OF PLAY**

1. Three Card Poker is a game where players compete against the dealer and against a “Pair Plus” bonus payable.
2. Players make an Ante bet to compete against the dealer. Players make the Pair Plus bet to compete against the bonus payable.
3. Players get three cards. The dealer gets three cards—two face down, one face up.
4. At this point, players have a choice:
  - a. Fold and surrender their Ante bet.
  - b. Stay in the game by making a Play bet in an amount equal to the Ante.
5. The dealer then reveals his hand.
6. If the dealer has less than Queen-high, he immediately returns each player’s Ante bet.
7. If the dealer has at least Queen-high, all bets receive action.
8. The dealer then compares his hand with each player’s.
  - a. If the dealer wins, the player loses his Play and, if applicable, Ante bet.
  - b. If the player wins, his Play and, if applicable, Ante bets win even money.
9. Pair Plus wins if the player has a pair or better. See layout for odds.
