## Stadium Blackjack Rules of Play

Stadium Blackjack is a variation of a Blackjack game wherein each player places a wager on their own player terminal, and the results of the game are determined by a live dealer utilizing community cards to reconcile player decisions. The game is dealt from the podium via a 6 or 8 deck shoe (Configurable) of standard 52-card decks.

## Rules of Play:

1. The live or automated dealer (Configurable) will begin the betting round once the timer expires on the player terminals. Players must make their desired wagers before the countdown timer expires.
2. Each player must place a Blackjack wager on the main betting location. In addition, they can also wager on the side bets that are available and may be Bet the Set 21, Royal Match 21, TriLux and Super 3 (Configurable) during this betting window. The Blackjack wager is required in order to wager on the side bets.
a. Blackjack - If the player's first two cards total 21 this is considered Blackjack and is paid 3:2 or 6:5 (Configurable). If the player's hand beats the dealer's, the hand is paid even money. If the dealer's hand beats the player's, the wager is lost. If the player's hand ties the dealer's hand the wager is a push. If the player's hand is a Blackjack and the dealer has an Ace up, Even Money will be offered. If the player refuses and the dealer's hand is a Blackjack the wager is a push. A hand total exceeding 21 is considered a bust.
b. Bet the Set 21 (Configurable) - If the player's initial two cards are a pair, the player is paid according to the paytable. Otherwise the wager is lost.

If making a Blackjack wager for the dealer they must first make a Blackjack wager for themselves. The player can make side bet wagers for the dealer regardless of whether the player has made a wager for themselves.
4. When the countdown timer expires no more bets are allowed. The live or automated dealer (Configurable) will deal one card on the layout to the 'Player' location, one to the 'Dealer' location, and a second card to the 'Player' location.
5. The players will then be able to make their decisions based on their two cards vs. the dealer's one card. These decisions are standard Blackjack options such as hit, stand, double down, split or even money. These options will be available based on the configuration setup.
