**Re: Andamiro Super Stars Amusement Game Version V1.41UG**

Dear Mr. Masterman,

Thank you for submitting the Super Stars amusement game to us for review. We have completed our review. It is my understanding the game plays as follows:

The object of the Super Stars game is to line up the arm at a prize number. The player does this by pressing a button and then releasing it when the arm is next to the desired prize number. If the player is successful the prize is dispensed. The Super Stars Game price per play can be adjusted based on the location and value of the prizes. You were advised that the maximum wager is \$3.50 and maximum prize is \$500 for locations where minors are allowed to play in Washington.

The Super Stars game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group V, hand/eye coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the Super Stars amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (425) 277-7026.

Sincerely,

Mark Harris
