Re: Baseball Pro Amusement Game

Dear Mr. Maniscalò,

Thank you for submitting the *Baseball Pro* amusement game, manufactured by Andamiro Inc., to us for review. We have completed our review.

It is my understanding the game plays as follows:

Players attempt to shoot balls into different areas on the game to get a base hit, double, triple, or home run. If the ball lands in any of the hit slots, the "runners" on the game advance around a baseball field. There are also areas on the game labeled "out". If a ball lands in the out slot, that play is an out. The game ends when the player gets three outs. Players receive tickets based on the number of runs scored.

The *Baseball Pro* game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 5 Hand/Eye Coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the *Baseball Pro* amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (425) 277-7026.

Sincerely,

Danny Lisa
