Re: Black Hole Amusement Game

Dear Mr. Berger,

Thank you for submitting the Black Hole amusement game, manufactured by Coastal Amusements, Inc., to us for review. We have completed our review.

It is my understanding the game plays as follows:

Players pull the plunger on the game to shoot a ball into different target holes. The player wins the number of tickets posted next to the hole where the ball lands. If the ball lands in the jackpot hole, the player wins the jackpot amount posted on the game.

The Black Hole game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 5 Hand/Eye Coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the Black Hole amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (425) 277-7026.

Sincerely,

Mark Harris
