**Re: Flappy Bird Merchandiser Amusement Game**

Dear Mr. Treankler,

Thank you for submitting the Flappy Bird Merchandiser amusement game to us for review. In the information submitted, it was noted that the software has been modified for Washington State. Specifically, the desired payout option and the two tier prize system feature which gives the player the option to forfeit a prize to advance to the second tier, has been disabled in Washington.

It is my understanding the game plays as follows:

This game is based on the Flappy Bird App. Players press the button to move the bird up and down through the pipes. If the player moves the bird past the checkered pipe they win one of the prizes displayed in the game. The player selects the prize and the prize is dispensed from the game.

The Flappy Bird Merchandiser game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 5 Hand/Eye Coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the Flappy Bird Merchandiser amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (425) 277-7026.

Sincerely,

Mark Harris  
Agent in Charge
