Re: High Five Amusement Game

Dear Mr. Berger,

Thank you for submitting the High Five amusement game, manufactured by LAI Games, to us for review. We have completed our review. It is my understanding the game plays as follows:

Players hit as many illuminated buttons as they can within the designated time limit. At the end of the normal game there is a three second bonus round in which all buttons are illuminated and the player hits as many as they can. Players win tickets based on their score at the end of the game. If a player beats the high score they receive extra tickets. WAC 230-13-005 prohibits awarding additional plays as prizes so free games may not be awarded if a player beats the high score. The game may be played with one or two players.

The High Five game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 5 Hand/Eye Coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the High Five amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (425) 277-7026.

Sincerely,

Josh Stueckle
Agent in Charge, Regulatory Unit
