Re: Jetpack Joyride

Dear Mr. Berger,

Thank you for submitting the Jetpack Joyride amusement game, manufactured by Adrenaline Amusements, to us for review. Special Agents Karen Rea and Sonja Dolson have completed their review.

It is my understanding the game plays as follows:

The game is based on the Jetpack Joyride app. A player uses the game controllers to move their jetpack through the course collecting points as they go. The player must also try to avoid obstacles on the video screen. The player is awarded tickets based on their score at the end of the game.

The Jetpack Joyride game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 5 Hand/Eye Coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the Jetpack Joyride amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

Sincerely,

A handwritten signature in cursive script that reads "Mark Harris".
