Re: Jewel Mine Amusement Game

Dear Mr. Treankler,

Thank you for submitting the Jewel Mine amusement game to us for review. According to the information submitted, the Jewel Mine has the same game play as the previously approved Big Bass Wheel and Ticket Monster.

It is my understanding the game plays as follows:

Players lift and pump the handle on the game down to spin the wheel. The player wins the ticket value displayed on the space where the wheel stops. When the player lands on the "Jackpot" they are awarded that number of tickets.

The Jewel Mine game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 5 Hand/Eye Coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (425) 277-7026.

Sincerely,

Josh Stueckle
