Re: Loony Tix

Dear Mr. Manning,

Thank you for submitting the Loony Tix amusement game, manufactured by Incredible Technologies Incorporated, to us for review. Special Agents Karen Rea and Sonja Dolson have completed their review.

It is my understanding the game plays as follows:

The game play begins when tickets are displayed on the video screen. Players tap the video screen and attempt to "grab" as many tickets as they can before time runs out. The tickets on the screen have different values. The more tickets the players "grab" the more tickets they win. Players also try to avoid the porcupine and other obstacles displayed on the screen. In order to win the jackpot prize, players must "grab" all lettered tickets to spell the game name, Loony Tix. Multiple players can play the game at the same time.

The Loony Tix game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 5 Hand/Eye Coordination (WAC 230-13- 035) amusement game in Washington State.

Please be advised that any modifications to the Loony Tix amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (253) 671-6283.

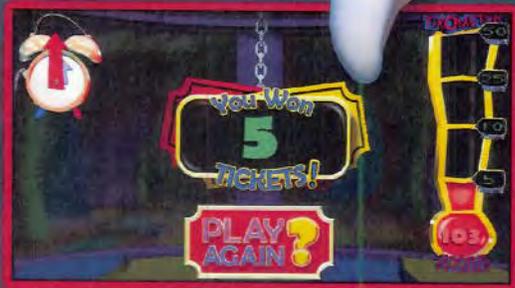

Sincerely,

A handwritten signature in cursive script that reads "Mark Harris".
