**Re: Tower of Tickets Amusement Game**

Dear Mr. Treankler,

Thank you for submitting the Tower of Tickets amusement game to us for review. We have completed our review. It is my understanding the game plays as follows:

Players press a button to activate a swinging arm. They attempt to time the moving arm to push a tower of tickets off of a rotating platform. If the player is able to successfully push the tickets off the platform, they receive that amount of tickets as a prize.

The Tower of Tickets game meets the definition of an amusement game (RCW 9.46.0201) and is approved for use as a Group 5 Hand/Eye Coordination (WAC 230-13-035) amusement game in Washington State.

Please be advised that any modifications to the Tower of Tickets amusement game software or associated equipment must be provided to us for additional testing and review. In addition, amusement games operated in Washington must not have settings that allow the operator to control the outcome of the game (auto percentaging). The approval of this equipment may be rescinded at any time if problems are found by the Commission or changes to the Washington Administrative Code (WAC) impact this approval. If you have any questions or concerns, please contact Sonja Dolson at (425) 277-7026.

Sincerely,

Josh Stueckle
