**AMENDED** Blaze Gaming Surface, Submission #2168

Dear Ms. Sholer:

Thank you for requesting approval of the Blaze Gaming Surface. It was submitted to be used as an optional component with the Saturn Roulette Wheel or Saturn Glo Roulette Wheel and the Elite Display. We have completed our review. Blaze Gaming Surface is approved to be operated in Tribal Casinos only in Washington. It is not approved for use in commercial non-tribal casinos.

The approval is contingent on the following requirements:

Manufacturer Requirements:

- Blaze Gaming Surface may only be deployed with the previously submitted and approved Saturn Roulette Wheel or Saturn Glo Roulette Wheel and Elite Display. It may not be deployed with any other roulette wheels or displays without being submitted, tested and approved by the Washington State Gambling Commission.
- The Blaze Gaming Surface may not be deployed as a standalone product and must be connected to one of the approved Saturn Roulette Wheels and an Elite Display while in play.
- The Gaming Floor Live (GFL) system was only submitted for approval with roulette and no other table games or features and functions were tested with this submission.
- The GFL interface will only be accessed by TCS John Huxley employees.

Tribal Casino Implementation:

Ensure casino internal controls and game rules are revised to include this new equipment and procedures, and they are approved by the Tribal Gaming Agency and concurred with by the Washington State Gambling Commission.
