RE: Cham2 STA version 1.66P\$

Dear Ms. Knowlton:

You requested Commission review of Mikohn's Cham2 STA version 1.66P\$ to determine compliance with regulatory requirements for operation in Washington State. On June 15, 2005, the submittal form (GC4-318) and \$1,000 deposit for the estimated cost of the review was received.

On June 16, 2005, I reviewed the submitted materials and compared them to the applicable WAC's and RCW's. I noted during the review the system can also be used for slot machines and have remote access. You informed me this system will only be used for table games and will not be connected in any manner to the Tribal Lottery System. Further, you informed me remote access will not be available in Washington State. Based upon the review and the above assertions, I have found the Cham2 STA version 1.66P\$ compliant with our rules and regulations and it is approved for use in Washington State.

Please be advised the nature of our review was limited and, accordingly, the Commission reserves the right to rescind or amend its approval. If you have any questions and/or concerns please feel free to call me at (253) 471-5312, ext. 234.

Sincerely,

Tony Hughes
Gambling Device Coordinator
