**GAMBLING**  
**COMMISSION**

*Protect the public by ensuring that gambling is legal and honest.*

We are an accredited, limited-jurisdiction law enforcement agency, and the only statewide agency devoted to gambling licensing, regulation and enforcement. Our special agents are commissioned law enforcement officers who attend the Basic Law Enforcement Academy and receive the same training as other police officers. Many agents are certified fraud examiners and some are certified public accountants.

Through collaboration with local, state, federal, tribal and international law enforcement agencies, we work to fulfill our legislative declaration of:

- (1) Keeping the criminal element out of gambling, and
- (2) Promoting social welfare through strict regulation and control.

We are a non-appropriated agency, funded through licensing and regulatory fees paid by licensees and tribal governments.

## 2019 NET GAMBLING RECEIPTS

### 2019 Gambling Gross Receipts

**\$906,524,238\***

\*Includes commercial and non-profit licensees; does not include tribal casinos

### 2019 Gambling Tax (Local)

**\$38,304,178\***

\*Collected by local jurisdictions, not by the Gambling Commission

## LICENSING

Our Licensing Division processes more than 20,000 gambling licenses and certifications each year. We conduct thorough background investigations and source funds to ensure crime does not gain a foothold in gambling operations.

## REGULATION & ENFORCEMENT

We enforce state gambling laws and rules for licensed activities such as: card games, bingo, amusement games, pull-tabs, punchboards, raffles and fundraising events. We conduct in-depth audits and on-site “spot” checks to ensure licensees are in compliance with rules and laws. Our Electronic Gambling Lab is responsible for testing equipment for compliance before it is installed. We also enforce laws for gambling activities that don’t require a license, including sports pool boards and small raffles.

Agents often conduct undercover investigations to ensure that gambling is legal and honest. They investigate crimes including: theft, fraud, Internet gambling, cheating, bookmaking, animal fighting, embezzlement, money laundering and loansharking.

## TRIBAL GAMING

The federal Indian Gaming Regulatory Act (IGRA) requires states to negotiate gaming compacts with tribes for gambling activities that are authorized under state law. The Gambling Commission’s director is delegated the responsibility of negotiating Class III gaming compacts. All 29 federally recognized tribes in Washington have a gaming compact.

### Regulatory Partnerships

We have a cooperative regulatory partnership with tribes. Additionally, we certify tribal gaming employees, who are also licensed by the tribes. Our Electronic Gambling Lab tests Class III gaming machines for compliance and integrity.

### Tribal Lottery System

The system is modeled after the Washington State Lottery’s Scratch ticket games. Each tribe is allotted 1,125 machines. Tribes may lease or purchase the rights for additional machines from other tribes, up to 2,500 per facility. The maximum number of machines allowed in the state is 32,625.

### 2017 Tribal Contributions

**\$22,163,064\***

\*Revenues accrued in 2017. Contribution payments made in 2018. Verified by WSGC in 2019.

## 2020 AGENCY REQUEST LEGISLATION

Our 2020 agency request legislation consists of two bills. HB 2280 and SB 6119 would amend the current money laundering civil forfeiture statute to allow us, and other law enforcement agencies, to direct forfeited proceeds and property towards furthering and enhancing gambling-related law enforcement activities.

HB 2281 and SB 6120 would amend the “bona fide charitable or nonprofit” definition to include nonprofit organizations registered under the Charitable Solicitations Act as additional types of organizations allowed to conduct gambling activities. The amendment also adds “religious” and “scientific” purposes as approved purposes for an organization to be considered a bona fide charitable or nonprofit organization.
